

We are looking for a

Solution Engineer

BOXARR is looking for Solution Engineers to support pre-sales and post-sales activities with our exciting global base of customers. Working with BOXARR account managers, you will deliver technical training, consultancy and demos to new and existing customers. You will become an expert user and advocate of BOXARR, developing your own BOXARR models to help address complex technical and business challenges. You will be part of a strong and supportive team, and have the opportunity to develop your customer facing skills alongside your technical, creative and problem solving skills.

Who are we?

At BOXARR our goal is to nurture a work environment that inspires collaboration, fun and productivity. This is an exciting opportunity for your growth, with a fantastic team, and real prospects for your future career. A career at BOXARR can be many things, but most of all it should be fun and rewarding. At BOXARR you'll get the flexibility and support you need to make a difference, to contribute, and to succeed.

Main Duties:

- Working with BOXARR account managers, you will be responsible for performing Demos, setting up Proof of Concepts, and providing initial training.
- When new business is won, you will be responsible for ensuring the solution is set up correctly.
- In many cases, you will also help the customer develop the BOXARR models they need.
- You will then continue to provide any training and product support to the customer as needed.

You will be involved in helping BOXARR grow and scale as a company. So a flexible and can-do attitude is a real bonus. For the successful candidates, BOXARR offers fantastic opportunities for personal and career growth.

Key Requirements:

- Excellent written and verbal presentation skills.
- An analytical mindset, with good interpersonal skills.
- Experience and confidence in creatively using common analysis software such as Tableau, Excel, Matlab, or similar.
- Able to provide IT support to the customer where required –i.e. install and configure the solution.
- Willingness to travel to our customers from time to time, mainly in the UK, USA, Australia, and Europe.
- Familiarity with the basics of computer programming, scripting, databases, etc.
- Any existing UK security clearances are beneficial, but not required.

Benefits include:

- Regular staff events
- Private Health Insurance
- Generous Pension Scheme
- Cycle To Work Scheme
- Critical Illness Cover
- Discounted Gym Membership
- Life Assurance Scheme

A healthy work-life balance is very important to us and we offer a fun and enjoyable environment with flexible working hours.

We believe that it is not possible to put every type of diversity into words. We always have and always will live with the intention that every person, from every background and demographic, is welcome. Whoever you are, and wherever you come from, we believe you have something to add to our mission. If this sounds like the place you have been looking for, apply today. We look forward to hearing from you.
